

# CERTIFICATE 2024

## Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria. In 2024, Solid'R reviewed their criteria to make them more inclusive for the European context. Find the criteria on the next page.

## Verification

### Les Petits Riens – Spullenhulp (LPR)

LPR fights poverty and social exclusion by accompanying homeless people as well as other disadvantaged people, in order to enforce societal integration. The organisation is mainly active in Brussels (and to a lesser extent in Wallonia) and believes that accommodation and work are the two cornerstones to tackle these challenges structurally and efficiently.

**Activities:** LPR confronts social injustice in society by helping people to improve their capability to enter the job market. LPR makes trainings available and has a discrimination policy. All profit is used for the continuity of the social ambitions.

**Employees:** LPR has a clear hiring policy which is transparent for employees. Since an amendment to the statutes end 2022, employees are no longer invited to become members or assist to the GA. However, an annual consultation/information meeting is held with employees to discuss the company's strategic decisions as mentioned in the internal regulations.

**Governance:** The 'one person, one vote'-principle is applied and members are not remunerated.

*Documentation and additional information was transparently shared with the auditor.*

## Notification

### Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

### Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
