

CERTIFICATE 2024

Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second-hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

General remarks:

Activities: The collected clothes are sold to commercial sorting firms, which revenues are used to finance the humanitarian projects of Salvatoriaanse Hulpactie, the sister-organisation of Salvatoriaanse Ontwikkelingshulp. The financing activities are well disclosed. Yet, it remains to a large extent unknown what the exact final destination of the clothing is. More transparency on this would be an improvement.

Employees: All personnel is offered work-related training. All goals on the level of security and waste have again been attained.

Governance: After board meetings, a follow-up meeting is held to update employees on the decisions made. According to public policy, employees have the right to participate in assembly meetings. In practice, this is implemented by inviting employees on a need basis.

Documentation and additional information was shared transparently with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2023, the **activities of Salvatoriaanse Ontwikkelingshulp are compliant** with the SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

Notification

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
