

CERTIFICATE 2024

Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria. In 2024, Solid'R reviewed their criteria to make them more inclusive for the European context. Find the criteria on the next page.

Verification

Le Relais Est

Le Relais Est is active in Mulhouse and southern Alsace. The organisation aspires to fight exclusion by creating sustainable jobs for vulnerable people. The jobs are related to the collection, reuse and recycling of textiles. Le Relais EST believes that by helping people to have a job, people gain their autonomy, dignity and place in society.

General remarks:

Activities: The Relais EST is focused on giving employees the voice and opportunity to participate in the decision-making process, the strategy and the organisation's future. The Relais Est did not give out dividends in 2023 or before, although their policy allows dividends to be given for 33% of the profit.

Employees: Trainings are organised on regular basis. Employees are invited to be part of the Scop when they work long term. Scop stands for "Société cooperative de production". This is a form of company (in France) where the major shareholders (min 51% of social capital) are employees.

Governance: The Relais EST has its accountancy reviewed by an external party and is member of the network of Emmaus, that controls for good governance and practises.

Documentation and additional information was transparently shared with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2023, the **activities of Le Relais Est are compliant** with SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
