

# AUDIT REPORT

## VERIFICATION OF SHIFTINGPACT LABEL

OCTOBER 2025

Forum Ethibel is a Belgian not-for-profit organisation that actively promotes Corporate Social Responsibility (CSR) and Socially Responsible Investing (SRI) to accelerate the transition to a more sustainable society. In this context, Forum Ethibel develops products and services to promote transparent and sustainable market behaviour.

The screening performed by Forum Ethibel guarantees that the procedure of BetterBusiness concerning the ShiftingPact Label is observed and applied as communicated.

### CONCLUSION

All documents to assess the processes for all organisations screened in October 2025 were provided.

Therefore, we declare that, for October 2025, the screening of organisations with the aim of receiving the ShiftingPact Label was in compliance with the processes described in the White Paper and in scope of this audit with the exception of:

- The formal documentation attesting proof checking by BetterBusiness, as these proofs were not safekept in a formal and auditable manner.

The processes have been applied consistently across all companies in the batch.

We finally note that no webinars were organized during the third quarter for already certified companies.

# CERTIFICATION DECLARATION, OCTOBER 2025

*To BetterBusiness's stakeholders,  
To the screened enterprises,  
To the public,*

Forum Ethibel is appointed by BetterBusiness to execute an external audit of their verification process on the awarding of the ShiftingPact Label.

BetterBusiness is a B Corp company whose mission is to help companies to create, develop and implement their sustainability strategy. BetterBusiness focuses on the need for very small businesses and SMEs to benefit from practical, tailor-made support that takes account of their size, sector and often limited resources.

Forum Ethibel audits BetterBusiness's implementation of the rules written out in the Terms of Reference (*Cahier des charges*) updated on 09/06/2025. This is an internal document whose purpose is to explain the founding principles and operations of the ShiftingPact certification, and to explain the various stages of the process, from the initial assessment to recertification. The Terms of Reference also describe specifically the sections that are covered by this audit. The sections out-of-scope are referenced at the end of this report as well. A simplified version of the Terms of Reference will be available to the public on the ShiftingPact website in the coming months.

Forum Ethibel had BetterBusiness's full administrative cooperation for the audit work. All additional information requested was provided. This report concerns all organisations screened for the ShiftingPact Label awarding in October 2025. This concerns 9 companies out of which 9 got the label.

## I. AUDIT PROCESS

The process started by predetermining the scope of the audit. All steps leading to the awarding of the label and the continuous improvement process of the label are in scope of the audit. All other parts of the White Paper are not covered by this report. The process of improvement and the engagement follow-up will be assessed quarterly.

Continuous dialogue took place between BetterBusiness and Forum Ethibel to assess the conformity of the verification process on ready-to-be-labelled enterprises.

For all screenings performed by BetterBusiness in October 2025, Forum Ethibel gathers its conclusions in one unique audit report. This audit is performed **ex-ante**.

For all enterprises, Forum Ethibel assessed if BetterBusiness went through all the steps described in the White Paper by reviewing the filled-in questionnaires and BetterBusiness's assessment. In general, Forum Ethibel also audits whether the rules of the White Paper were implemented for each label batch with consistency for all

enterprises of a verification batch, with an emphasis on data gathering, the motivation to give or cancel points, adherence to the overarching philosophy of the label and conflict of interest management. Below, the figure presents a visual representation of the ShiftingPact labelling process, highlighting the timing of the audit conducted by Forum Ethibel.

### **Observations**

- For the companies assessed for October 2025, Better Business did not archive documentation from the companies to support their responses. Forum Ethibel suggests that this practice should be implemented as soon as possible.
- There was no potential conflict of interest to be managed during this batch, and therefore the neutral decision-making safeguards did not have to be put in place. These points are therefore rated NA.

### **DISAGREEMENT WITH ENTERPRISES**

When a disagreement arises between the certified company and the certifying entity concerning a verification point which has led to the refusal of a response, a constructive approach based on dialogue is systematically favoured by BetterBusiness. If such a situation arises, Forum Ethibel performs an additional screening to assess impartiality of the decision whose conclusions are discussed by an advisory committee.

Number of organisations concerned by the disagreement policy	0

### **COMMITMENT MONITORING**

BetterBusiness coordinates follow-up on commitments by alternating between webinars for the community and monitoring on an individual basis. Every quarter, BetterBusiness either host a webinar, either organises individual follow-up. No webinars were organized in September or October to follow up on the one held in March 2025. This therefore constitutes a shortcoming in the Terms of Reference.

### **TRANSPARENCY CRITERIA FOR COMPANIES IN THE PREVIOUS BATCH**

As the Forum Ethibel audit takes place prior to the certification decision, it is not possible to verify compliance with transparency criteria (which relate to events occurring after certification). Compliance with the transparency criteria for one batch is therefore systematically examined in the report for the following batch. The table below examines compliance with these criteria for companies certified in September 2025 or earlier, and whose transparency criteria have not yet been certified.

## RECOMMENDATIONS

Forum Ethibel proposes the following recommendations for enhancing the ShiftingPact verification process as part of the continuous improvement philosophy shared by BetterBusiness and Forum Ethibel. These recommendations aim at strengthening the audit of the verification and the credibility of the approach:

- Company responses should be supported, where possible, by written documentation. All documents used in the assessment process should be securely stored to maintain data integrity and facilitate future audits.
- It is advisable to set up a process so that a company disagreeing with the result of the audit can initiate a disagreement procedure directly with the advisory committee.
- It is recommended follow-up on the biannual webinars, as there have been none since last March. This does not pose a risk of improper certification but is a commitment on the part of ShiftingPact.
