

# CERTIFICATE 2021

## Objective

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control** and **certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

## Wereld Missie Hulp (WMH)

WMH helps disadvantaged people around the world. The organisation has a network of containers in Flanders and Brussels to collect second hand clothes and shoes. Part of the profit of the collection is assigned to humanitarian and development projects. Yearly, WMH supports over 200 projects with priority given to poverty reduction, health care, education, gender equality, sanitation and innovation.

**General remarks**  
WHM is a small organisation and consequently, there is a lot of **informal exchange** between employees and the managers.  
Given the challenges WHM (& other players in the sector) faces, the organisation is undergoing a **restructuring**. This element, combined with the choice to keep on providing significant amounts to development projects (the goal of WMH), explains the low financial results. It is important to follow up the **changes in staff**, since there have been several switches throughout. Additionally, full transparency on the company cars should be maintained.

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2020, the **activities of Wereld Missie Hulp are compliant** with SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

### Notification

#### Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

#### Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
