

CERTIFICATE 2022

Objective

<u>Forum Ethibel</u> is a Belgian not-for-profit organisation and recognised as an expert in **rating**, **independent control** and **certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

<u>RESSOURCES</u> is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

Verification

Oxfam Solidarité - Solidariteit

The goal of the organization is to eliminate poverty by tackling its causes and consequences, amongst others migration, climate, land grabbing and gender inequality. Using income generated from second-hand stores and funds, Oxfam-Solidarité provides support in the South. This might be support in case of emergency relief, long term local partnership and influencing policy.

General remarks:

Activities: Oxfam Solidarité supports vulnerable persons to reintegrate in the labour market or in society and contributes to the climate crisis through its activities in the second-hand sector. During the audit, financial accounts were audited to verify that all resources were used in accordance with the organization's objectives and to check compliance with the social, tax and environmental legislation.

Employees: During the Covid-19 pandemic, the HR department of the organization tried to maintain contact with its employees through formal and informal online meetings. This was due to an internal restructuring, where the wellbeing of all employees was followed up. In addition, to ensure bottom-up information sharing, the organization developed sophisticated feedback cycles and organizes satisfaction surveys annually.

Governance: The members of the general assembly are not remunerated and the 'one vote, one person'-principle is applied. Sometimes, employees of Oxfam can be present at (parts) of the board meetings to clarify certain topics or to assist volunteer GA-members.

Documentation and additional information was transparently shared with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2021, the activities of Oxfam Solidarité - Solidariteit are compliant with SOLID'R Ethical Charter that is based on the European criteria of social economy.

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
